

INSTITUTE OF FINE ARTS

Fine Arts Institute has been founded to contribute to the academic careers of future artists who have internalized the national culture and traditional arts, with an aim to preserve many precious works of Turkish Art covering a vast geography for centuries; to produce work in line with the current artistic and aesthetic understanding within a universal dimension, and to further contribute to the artistic and aesthetic understanding of society.

Our primary goal in our institute's graduate programs within the field of Traditional Turkish Art (Calligraphy, Ornamentation Art, Miniature, Glazed Tile, Binding, Hand-Carved, Carpet-Rug-Cloth designs) is to preserve and cherish what is traditional, and to evaluate it within the current artistic understanding. We aim to create an educational environment which will enable students to produce authentic designs with a priority of style and authenticity by using the correct materials, patterns and technical information in all fields.
